EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: In the claims, CANCEL claims 20-26.

Election/Restrictions

This application is in condition for allowance except for the presence of claims 20-26 directed to an invention non-elected without traverse. Accordingly, claims 20-26 have been cancelled.

Allowable Subject Matter

Claims 1-19 are allowed.

The following is an examiner's statement of reasons for allowance: Claim 1 states the limitation "a plurality of connection pad arrays disposed on the substrate assembly in accordance with a predetermined warp variance of an interconnect to be connected to the connection assembly". This limitation, in conjunction with the other claimed features, was neither found to be disclosed in, nor suggested by the prior art. Claim 13 states the limitation "connection pads disposed on the substrate assembly based on a warp variance of an interconnect to form a configuration that provides contact in multiple offset alignments between the connection pads and a different terminal of the interconnect caused by warping of the interconnect during manufacture

of the interconnect". This limitation, in conjunction with the other claimed features, was neither found to be disclosed in, nor suggested by the prior art. Claim 18 states the limitation "connection pads disposed on the first surface to form a configuration based on a warp variance of an interconnect that is determined from manufacturing the interconnect such that each connection pad is configured to align with a different terminal of interconnect that is warped in a direction parallel with the first surface". This limitation, in conjunction with the other claimed features, was neither found to be disclosed in, nor suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
